

ROSHAN VARGHESE

DATA ANALYST

Email: roshanv334@gmail.com • Phone: +971 562101408 • LinkedIn: linkedin.com/in/roshan-varghese-r08
Location: Abu Hail, Dubai, UAE (Visit Visa, Immediate Availability)
GitHub: github.com/Shadow-Vanguard • Portfolio: portfolio-roshan-vargheses-projects.vercel.app

SUMMARY

Data Analyst with a Master of Computer Applications and hands-on experience in data analysis, reporting, and dashboard development. Skilled in SQL, Python, Excel, and Power BI for extracting, cleaning, and analyzing large datasets to generate actionable insights and support data-driven decision-making. Experienced in exploratory data analysis (EDA), KPI reporting, and building automated data pipelines and interactive dashboards. Adept at translating business requirements into clear insights to optimize performance and inform stakeholder strategy. Currently based in Dubai with immediate availability.

CORE SKILLS

- Data Analysis:** Data Cleaning, Data Preprocessing, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, KPI Reporting, Data Visualization, Dashboard Development, ETL Pipelines
- Programming:** Python (Pandas, NumPy), SQL (MySQL), Excel, Jupyter Notebook, Matplotlib
- Business Intelligence (BI) & Tools:** Power BI, SQL-based Reporting, Interactive Dashboards, KPI Tracking
- Machine Learning & AI:** Predictive Modeling, Model Evaluation, TensorFlow, PyTorch, CNN, NLP, RAG, LLM
- Databases & Clouds:** MySQL, PostgreSQL, GCP, AWS, Azure
- Concepts:** Data-driven Decision Making, Data Governance, Data Quality, Automation of Workflows, Data Modeling
- Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Stakeholder Management, Teamwork, Adaptability, Storytelling

EXPERIENCE

Junior Data Analyst

Zidio Development, Bengaluru, India | Jun 2025 – Feb 2026

- Processed and cleaned **80K+ records** using **Python (Pandas, NumPy) and Excel**, improving data quality by 30% through effective preprocessing.
- Designed and maintained **ETL pipelines** using **Python and SQL (MySQL)**, ensuring reliable data flow and consistency across systems.
- Developed optimized **SQL queries** and reports, improving reporting efficiency by **25%** and supporting **KPI tracking**.
- Built interactive **Power BI dashboards** with data visualization techniques using **Matplotlib** to deliver clear insights and support decision-making.
- Performed **EDA (Exploratory Data Analysis)** and statistical analysis in **Jupyter Notebook**, translating business requirements into actionable insights with strong analytical thinking and storytelling.

Data Science & Analytics Intern

Zidio Development, Bengaluru, India | Mar 2025 – Jun 2025

- Assisted in building and evaluating **Machine learning** models on datasets with **20K+ records**, achieving up to **92% accuracy**.
- Supported automation of data analysis workflows using **Python and SQL**, reducing analysis time by **30%**.
- Contributed to developing **FastAPI-based ML APIs** for basic automation, reducing manual effort by **25%**.
- Created **Power BI dashboards and SQL reports** to support business insights and decision-making.
- Collaborated with team members to understand requirements and deliver data-driven insights aligned with business goals.

PROJECTS

Coffee Shop Sales Analytics Dashboard | Power BI, Data Cleaning, Storytelling | Aug 2025 - Feb 2026

- Developed an interactive sales analytics dashboard for a coffee shop, analyzing **100,000+ records** to track daily/weekly sales, revenue trends, and product performance.
- Implemented **KPIs and DAX measures** to identify top-selling products, peak sales hours, and customer purchase patterns.
- Created department-wise and product-wise visualizations using **Power BI**, applying data storytelling techniques to present actionable insights to stakeholders.
- Achieved **92%+ accuracy** in sales predictions and analyses, improving reporting and operational efficiency by **~45%**, enabling management to optimize inventory, pricing, and promotional strategies.

SnapSense AI | Python, OpenAI API, TensorFlow, PyTorch, CNN, NLP, Google Calendar API | Sep 2025

- Built an **AI-powered** screenshot-based reminder system achieving **98%** classification accuracy.
- Extracted, classified, and summarized actionable data using **CNN and NLP** techniques.
- Systematized task prioritization with Telegram and WhatsApp integrations and Google Calendar API.
- Presented the solution at the AI Genesis Hackathon.

Road Guardian | Python, FastAPI, OpenAI API | Aug 2024 - Mar 2025

- Developed a Django-based roadside assistance platform with real-time tracking and analytics dashboards.
- Implemented **CNN and NLP models** to validate incident images and detect AI-generated content.
- Applied reinforcement learning-based route optimization, reducing service allocation time by **25%**.
- Integrated ML models via REST APIs for real-time predictions and alerts.
- Deployed using **GCP** and **AWS**.

EDUCATION

Master of Computer Applications (MCA) | Sep 2023 - Mar 2025

- Amal Jyothi College of Engineering (Autonomous), Kanjirappally

CERTIFICATIONS

- Power BI – Office Master (2025)
- Data Science & Analytics – Zidio Development (2025)
- Introduction to AI & Data Science – Infosys Springboard (2024)
- The Joy of Computing Using Python – NPTEL (2024)

ADDITIONAL INFORMATION

- **Awards & Achievements:** AJCE Hackathon – Top 3 Winner, AI Genesis Hackathon – Top Participant; deployed a working AI project organized by LabLab AI, Director’s Honours Award
- **Workshops & Engagements:** Attended AI Summit Dubai and participated in workshops by NVIDIA and AWS, GenAI Cloud and DevOps International Workshop, Wikimedia Technical Workshop, Wiki Conference Kerala Delegate
- **Languages:** English, Hindi, Malayalam
